FULL-STACK DEVELOPER

Driven full-stack software engineer with experience in JavaScript and Rails web development. Seeking opportunity to apply self-starter attitude, leadership experience, and strong interpersonal skills when helping build innovative solutions within an organization that values diversity and creativity. Open to challenges and working with exciting new technologies.

TECHNICAL SKILLS

Front-end: JavaScript, React, Redux, Thunk, HTML5, CSS, Bootstrap, JSON
Back-end: Ruby, Rails, SQL, REST Web Services, Node.js, ActiveRecord, Rack, Rake, Flash, MVC, ORM, Data Structures, Git

TECHNICAL PROJECTS

Storyteller - https://github.com/Mely07/Storyteller-React-Redux-Project | Demo
A single page app developed using Ruby on Rails, React-Redux and SQLite technologies, that allows users to build stories together.
- Created RESTful APIs to allow fetching and updating of story content using React-Router to deep link content.
- Stored application state using Redux, allowing for easier access to and sharing of properties and methods across components.
- Designed reusable React front-end UI components to automatically alter the DOM depending on changes in state and props data.
- Employed Thunk middleware to delay the dispatch of asynchronous actions, avoiding fetch errors and improving performance.

Book-It - https://github.com/Mely07/Book-It-JS-Rails-Project | Demo
A single page web application for high school students dedicated to finding and sharing honest reviews for test-prep books.
- Encapsulated related data and behavior using a PostgreSQL database, classes, and object-oriented programming design.
- Dynamically altered page content by using JavaScript to interact with the DOM.
- Integrated AJAX to handle async calls between JS client-side and Rails backend, enhancing performance and response time.

Giving Back - https://github.com/Mely07/Corporate-Philanthropy-Rails-Project | Demo
An application built for companies to show and share their support, via philanthropic initiatives, to the local community.
- Built a full-stack content-management system using the Rails framework following MVC and RESTful conventions.
- Set up validations to prevent invalid data from being persisted to the database using Rails Active Record.
- Ran custom queries to filter data by using Active Record's scope method.
- Implemented standard user authentication as well as the ability to login or register using Google's OAuth API.

WORK EXPERIENCE

Director of Business   *St. Francis Xavier Church*, New York, NY   01/2016 – Present
- Successfully manage general ledger accounts using QuickBooks and ParishSOFT software products.
- Work directly with the parish accountant to reconcile bank statements and adjust trial balance for financial statements.
- Consult department heads and ministry leaders when developing the annual budget.
- Present monthly financial statements and annual budget to the Parish Finance Committee.
- Oversee a budget of $2.5M used for planning and coordinating large-scale events, administering insurance policies, and effectively managing day-to-day operations including a team of 7 part-time maintenance and administrative personnel.
- Collaborated with the Communications Director and Pastor to design and effectively implement offertory campaigns resulting in a 10% increase in giving and 5% increase in new donor registrations.

Administrative Assistant   *St. Francis Xavier Church*, New York, NY   06/2013 – 12/2015
- Streamlined donation-recording processes, significantly improving reliability of year-end tax statements.
- Assisted in the development and management of content for the new parish website.

EDUCATION

Flatiron School, New York, NY (Online)   12/2019 – 10/2020
Full Stack Web Development, Ruby on Rails and JavaScript Coding Program

Villanova University, Graduate School of Business, Villanova, PA   09/2015 – 05/2017
Master of Science (MS) in Church Business Management

New York University, College of Arts & Science, New York, NY   09/2009 – 05/2013
Bachelor of Science (BS) in Psychology, Minor in Social Work

VOLUNTEER EXPERIENCE

Girls Who Code *Co-facilitator* at Madison Square Boys & Girls Club Pinkerton   10/2020 – Present
The Latinas On The Verge of Excellence Mentoring Program *Young Professionals Board Co-founder*   10/2019 – Present
